Education

Bachelor of Science in Software Engineering

Adventist University of Central Africa

Expected Graduation: December 2026

Objective

Creative and highly motivated final-year Software Engineering student with a passion for building real-world solutions. Proficient in Java, MySQL, and software design principles. Seeking an internship in Project, Product, or Operations Management at M365Consult to gain hands-on experience and contribute meaningfully to impactful projects.

Technical Skills

Languages: Java, SQL, JavaScript (basic)

Databases: MySQL

Core Concepts: OOP, Data Structures & Algorithms, MVC architecture

Tools: IntelliJ IDEA, NetBeans, Git, Swing, JDBC

Soft Skills: Team collaboration, problem-solving, adaptability, communication

Projects

Smart Banking System (Java Console Application)

- Developed a fully functional banking system using OOP principles.
- Managed accounts with features like deposits, withdrawals, and overdrafts.
- Implemented PIN-based login and a menu-driven interface.
- Used constructor chaining and method overloading for cleaner architecture.

Student Management CLI App

- Managed student records using Java + JDBC + MySQL stack.
- Applied MVC and DAO patterns for separation of concerns.
- Enabled streamlined CRUD operations through a CLI interface.

Certifications & Extras

Participated in university hackathons and coding competitions.

Passionate about software with impact, teamwork, and clean code.

Languages

English (Fluent)

Kinyarwanda (Fluent)
